Thank you for your recent thorough description and rationale document on Amelia Island beach preservation disseminated through the AIPCA. I appreciate your work and wish all local cooperative groups had your effort and organization.

Keep up the good work-
Danny Indelicato

Subject: Renourishment
To: <saissabeach21@gmail.com>

Dear Sirs:

What amount does SAISSA currently have in reserves? Why would SAISSA borrow the full cost of the 2021 re-nourishment (\$20.8M)?

There is a rumor the county interim manager/attorney will recommend to the county commissioners that north of the state park to the southern boundary of AIP be opened to beach driving. Isn't this contrary to the renourishment & erosion control goals of SAISSA? Any truth to the rumors? If so, what is SAISSA's position?

Thank you, Rod

Recently read the background letter re SAISSA history – well done and keep up the good work. This unseen board isn't always appreciated, so thought you might like a "Thank you."

Thank you for the informative letter and background information about the coming replenishment. Can you please explain in forthcoming q and a how the cost is determined/estimated and why the cost will be so much greater this time than last?

Regards,
Marybeth Tita
